Proposition Grows Out of Experiment Being Made at St Andrew's City.

MUNICIPAL ELECTION HELD

J. D. Sharman Elected Mayor on Friday Night-Unique Work Being Done.

The 200 members of the St. Andrew's School City, a government made up almost entirely by and for boys, held their annual election of city officers on Friday night. St. Andrew's City has been in existence for a year, and the plan has met with complete success. The boys who are voters in this government have taken entire charge of the neighborhood of St. Andrew's School, and have made of it one of the quictest and most peace, ful communities in the city. They have undertaken to refund the city for every Eas-lamp that is broken in any of the streets over which they have control, and every convicted offender is severely punished with a heavy fine.

Interesting Work.

The government is run on exactly the same lines that are usual with regular city governments, and the boys manage their official affairs with the same dignity and idea of duty as do officials in titles of real status. Appointive positions are based upon civil service examinations, the positions being conferred upon those who are the most successful in examination.

The boys who are members of this small city are fully conversant with the fins and outs of city government, and are fully qualified to exercise the right of suffrage I has made of them a manly set, who would deem it beneath their dismits to cause any disturbance on the streets, and who would be prompt to take action against any violation of the ordinances which they have passed. It is the fomi hope of those who were the initiators of this scheme for training boys in ideal government that Richmend will have, at an early date, a juvenile court, such as has already been established in many other cities for action asainst youthful offenders. They state that such a court is one of the great needs of Rienmond, and that it will soon come.

ADMIRAL DUBASSOFF IS SLIGHTLY WOUNDED

ST. PETERSBURG, Dec 12.—Another attempt on the life of Admiral Dubassoff, ex-governor-general of Moscow, was made this afternoon, but he escaped with slight infuries. Dubassoff was driving at 1 P. M. in Sergiyewskaya street, on his way to the Taurida palace, when two men hurled a bomb at his carriage. It exploded with great force, but only slightly wounded the admiral. The would-be assassins were arrested.

Doubassoff had a remarkable escape. The terrorists made a very determined attack upon him. One man approached the admiral and fired several shots at him with a revolver, but missed. The terrorists then threw a bomb at Doubassoff, which exploded and wounded the admiral in the leg. A bystander selzed the admiral's assailant, whereupon a second terrorist appeared and went through exactly the same performance. The second bomb thrown, however, did not explode and Doubassoff, distours in those
